# COMPANY HISTORY

## COMPANY HISTORY

Golden Banner General Contracting (GBGC) was incorporated in 2017, based in Abu Dhabi, U.A.E. it has grown leaps and bounds. Golden Banner General Contracting is a fully corporatized and professionally managed company. We strongly believe that our clients need the best facility and services, therefor in order to fulfill the continuously changing client dynamic and expectations the company decided to have a fully corporatized environment.

Today, GBGC is becoming one of the leading Electrical Contractor in construction industry. Although competition has always been there, but our policy-based principles have put us on incomparable growth path ever since the inception. Our teams take an extra step towards the understanding of modern era highly specified infrastructure.

Golden Banner General Contracting offers a full range of Electrical, HVAC, Plumbing, Fire Fighting Services, and CHW System. Pertaining to all types of Electrical Low Voltage system, Fire Alarm System, Central Battery System, Security, Control System, Low Current Systems (CCTV, SMATV, VICS, ACS, LCS, SC etc.), Ducting work, Chillers Installation, FAHU'S / AHU'S Installation, Water Supply Installation, Drainage Installation following all the international standards for design, formation accomplishment, testing and commissioning and safety. GBCG has a mission to provide a long-term relationship with prestigious Clients, Consultants and Main Contactors.

# COMPANY STRUCTURE

## COMPANY STRUCTURE

# HEALTH AND SAFETY POLICY

## HEALTH AND SAFETY POLICY

Golden Banner General Contracting is committed to providing and maintaining a safe and healthy workplace for all workers including contractors and volunteers as well as clients, visitors and members of the public. Hazards and risks to health and safety will be eradicated or minimized, as far as is reasonably practicable.

The responsibility for managing health and safety ultimately rests with the person in control of the business or undertaking (GBGC), directors and management. Workers also have important responsibilities for health and safety in the workplace.

We are committed to complying with the Work Health and Safety Act 2011, the Work Health and Safety Regulation 2011, codes of practice and other safety guidance material.

### The Management of GBGC will:

- Ensure the business complies with all legislation relating to health and safety.
- Provide information, instruction and training to enable all workers to work safely.
- Supervise workers to ensure work activities are performed safely.
- Consult with and involve workers on matters relating to health, safety and welfare.
- Provide appropriate safety equipment and personal protective equipment.
- Provide a suitable injury management and return to work program.

### The Workers of GBGC will:

- Take reasonable care for their own health and safety.
- Follow safe work procedures, instructions and rules.
- Participate in safety training.
- Report health and safety hazards.
- Report all injuries and incidents.
- Use safety equipment and personal protective equipment as instructed.

# ENVIRONMENTAL POLICY

## ENVIRONMENTAL POLICY

It is the policy of Golden Banner General Contracting to operate the company in a manner that recognizes its responsibilities to and for the environments. GBGC are committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimizes our potential impact on the environment. We will operate in compliance with all relevant environmental legislation and we will strive to use pollution prevention and environmental best practices in all we do. Our Policy therefore, is to:

- Integrate the consideration of environmental concerns and impacts into our decision making and activities.
- Minimize our waste and then reuse or recycle as much of it as is possible.
- Minimize energy and water use within our buildings and processes in order to conserve supplies and minimize the consumption of natural resources.
- As far as is possible, purchase products and services that do the least damage to the environment.
- Train, educate and inform our employees about environmental issues that may affect their work.
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Communicate our environmental commitment to clients, customers and the public and encourage them to support it.
- Where required by legislation or where significant health, safety or environmental hazards exist, develop and maintain appropriate emergency and spill response programs.

# SERVICES AND SOLUTIONS

## SERVICES AND SOLUTIONS

The team of Golden Banner General Contracting Engineers offers a comprehensive portfolio of services tailored for every stage of a power system's life cycle whether it's design, build, or support. By utilizing the most current technologies, our engineers design Electrical systems, HVAC System, Chilled Water Systems and Plumbing Systems that are safe, reliable and economical. In addition, we work closely with project architects and interior designers to ensure that our Electrical Designs, HVAC Designs and Plumbing Designs blend perfectly with a facility's aesthetics. Our services integrate and optimize the elements of an Electrical System to make sure it's aligned with business goals.

Golden Banner General Contracting provides end to end solutions in Mechanical, Electrical and Plumbing services to the following business sectors:

### 1. **Villas**

### 2. **High Rise Towers**

- Residential Towers
- Office Towers
- Mixed use development

### 3. **Infrastructure**

- Airport Terminal & Lounges
- Substations and Control Rooms
- District Cooling Plant
- Metro Rail (Underground & Stations)
- Stadium & Sports Complex

## 4. **Education**

- Schools
- University
- Multi-purpose Halls

## 5. **Medical Care Hospitals**

- Medical Centers
- Pharmaceutical
- Clean Room

## 6. **Hospitality**

- 5 - Star Hotels
- Clubs & Lounges
- Restaurants
- Industrial Kitchens

## 7. **Commercial**

- Shopping Malls
- Hypermarkets
- Showrooms & Retail Stores- Fit out
- Banks- Fit out
- IT Data Centers

GBGC is fully focused on customer satisfaction is our final goal and we achieve this through our quality work and outstanding performances putting into consideration health & safety of our workers and the environment as well.

- ELECTRICAL WORKS
- HVAC WORKS
- PLUMBING WORKS
- FIRE FIGHTING WORKS

# CIVIL SYSTEM

## CIVIL SYSTEM

Golden Banner plays a Major role in residential Villas, commercial building contracting & maintenance services in Abu Dhabi. Golden Banner takes construction of residential villas, commercial buildings both structurally & architecturally, using the most modern & durable methods of construction with highest quality to client's satisfaction. We have acquired an excellent reputation in Abu Dhabi and have done many projects related to building maintenance for residential & commercial buildings. We are specialized in warehouse roofing works.

Golden Banner Civil Engineering carries out large-scale infrastructural projects -in UAE . Our team comprises enthusiastic and ambitious experts with comprehensive knowledge of and passion for large-scale civil engineering projects. We provide top-quality implementation and feedback – no matter the complexity or size of a project.

From 2019 to 2024, Golden Banner is the main contractor for various government entities construction projects in UAE. We were leading a major bridge and road construction project in UAE.

From our projects, we have a solid experience in mobilizing for example personnel, materials, equipment and establishment of base camps. We will include all necessary resources from Golden Banner Group to ensure professional project management in accordance with applicable standards and regulations.

These complex large-scale projects fully reflect the company's strategic direction.

# ELECTRICAL SYSTEM

**(ADDC – APPROVED COMPANY)**

## ELECTRICAL SYSTEM

The Electrical Division of Golden Banner General Contracting handles all aspects of low voltage electrical works, and other services such as main installation, small power installation, internal, external & emergency lighting installation. GBGC handles cable laying, jointing, termination and installation of distribution equipment up to 11kV. Execution of sub-station & sub-main power station, transformers, generators, standby generator installation, bus-bars and all related to Electrical Works.

### **ELECTRICAL SCOPE OF WORK.**

#### 1. Electrical Low Voltage Works:

- Engineering, Design, Installation, Testing & Commissioning of Electrical Works.
- Maintenance contracts for facilities.
- Approval works from relevant authorities i.e. ADDC, ADWEA & Etisalat.

#### 2. Fire Alarm System & Central Battery System:

- Engineering, Design, Installation, Testing & Commissioning of FAS & CBS Works.
- Maintenance contracts for facilities.
- Approval works from relevant authorities i.e. ADDC, ADWEA & Etisalat.

#### 3. Security and Control System:

- As per client needs, keeping in view the quality and local authorities' rules.
- Design, Installation, Testing & Commissioning of Security and control system Works.

#### 4. ELV Systems:

- Structured Cabling System
- Access Door Control System
- SMATV System
- Lighting Control System
- Audio / Video Intercom System
- Home Automation System
- Close Circuit Television System

#### 5. Building Automation System

- Building Management System
- Central Monitoring System
- Energy Management System

# HVAC SYSTEM

## HVAC SYSTEM

HVAC stands for Heating, Ventilating, and Air Conditioning, and HVAC systems are, effectively, everything from your air conditioner at home to the large systems used in industrial complexes and apartment blocks. A good HVAC system aims to provide thermal control and indoor comfort, and one that is designed using the principles of thermodynamics, fluid mechanics, and heat transfer.

The HVAC Division of Golden Banner General Contracting is highly equipped to handle all aspects of the Heating, Ventilation, and Air Conditioning industry. This includes closed control Airconditioning, Ventilation Systems, Heating Systems, Pressurization fan.

GBGC deals with the Installation of water-cooled or air-cooled chillers, cooling towers, heat exchangers, Air Handling & Fan Coil Units, Chilled Water piping, Multi Split DX Units, Duct works including Grilles & Diffusers, VAV Systems, Precision Units, Hot Water Systems, Electro Water Heaters, Pumps, Booster Pumps & Piping.

### **HVAC SCOPE OF WORK**

GBGC Keys to obtaining design efficiency of a system in the field include:

- Design, Installation, Testing and Commissioning of Ventilation Ducts.
- Design, Installation, Testing and Commissioning of Chilled Water System.
- Design, Installation, Testing and Commissioning of Air Conditioning System.
- Sizing the system for the specific heating and cooling load of the home being built.
- Proper selection and proper installation of Chiller's, Fresh Air Handling Units, Air handling Units and Fan Coil Units.
- Sizing and designing the layout of the ductwork or piping for maximizing energy efficiency.
- Insulating and sealing all ductwork.

For proper operation, a HVAC system must be properly designed, sized and installed. GBGC provides proper HVAC system which will provide an improved indoor environment and minimize the cost of operation. In the planning process for an energy efficient home, everything should be done to reduce the heating and cooling load on the home before the HVAC system is designed.

# PLUMBING SYSTEM

## PLUMBING SYSTEM

A plumbing system is a long-term investment and should be so designed that it does not become outdated and need replacement while its major parts are still serviceable. This requires careful estimation of current and future demand so that the correct capacity can be specified.

Golden Banner General Contracting provides the capacity and dimensions of component parts in a plumbing installation that should be adequate to meet both immediate needs and anticipated future use. However, the team of GBGC provides the perfection in design is frequently compromised by cost, especially in Economical and developing communities. Good design of plumbing systems is an important step in ensuring that the installations are efficient, safe and affordable. It should take into account the special needs and limitations of developing countries and should also ensure that the installations are appropriate for the different situations they serve.

An understanding of the technical requirements and regulatory restrictions is vital for the provision of good plumbing services. GBGC has a good Experience in his excellence work in the Engineering, Design and installation of Plumbing services for Schools, Villas, Sports Complex, multi-story buildings and high raise towers. It deals with special issues related to industrial and other special purposes, hot water and other dual supply systems and storm water drainage. It includes guidelines on capacities of plumbing systems, plumbing materials and products, and the use of protective devices to prevent back siphonage and backflow.

### **PLUMBING SCOPE OF WORK**

GBGC Keys to obtaining design efficiency of a system in the Plumbing field include:

- Design, Installation, Testing and Commissioning for Boosting Water Pressure.
- Design, Installation, Pressure Testing for Water Supply System
- Design, Installation, Testing and Commissioning for Drainage System;
  - a. Drainage System Consideration
  - b. Vacuum drainage system
  - c. Drainage system for Air conditioning system
- Design, Installation, Testing and Commissioning for Hot water and cold-water system.

# Golden Banner General Contracting

- Design, Installation, Testing and Commissioning for sewerage system.
- Design, Installation, Testing and Commissioning for Storm Water System.
- Design, Installation, Testing and Commissioning for water storage vessel's
  - d. Sanitary Flushing
  - e. Supply of Drinking Water
  - f. Ablutions
  - g. Prevention of cross connection
  - h. Contingency reserve

# FIREFIGHTING SYSTEM

## FIREFIGHTING SYSTEM

We Specialize in the installation, testing & Commissioning of the protection Equipment for small, medium & large industrial, residential and warehouse buildings.

An understanding of the technical requirements and regulatory restrictions is vital for the provision of good firefighting services. GBGC has a good Experience in his excellence work in the Engineering, Design and installation of firefighting services for Schools, Villas, Sports Complex, multi- story buildings and high raise towers. It deals with special issues related to industrial and other special purposes.

Golden Banner General Contracting provides the capacity and dimensions of component parts in a firefighting installation that should be adequate to meet both immediate needs and anticipated future use. However, the team of GBGC provides the perfection in design is frequently compromised by cost, especially in Economical and developing communities. Good design of firefighting systems is an important step in ensuring that the installations are efficient, safe and affordable. It should take into account the special needs and limitations of developing countries and should also ensure that the installations are appropriate for the different situations they serve.
